Total Shows by Country

Movies and Tv-shows

Total shows by release year

This is a comprehensive analytics report derived from the Amazon Prime dataset, presented through a dashboard interface. The dataset reveals multiple key insights, including:

Total number of titles

Total genres available

Cumulative ratings across the platform

Furthermore, it segments the data to provide insights such as:

Ratings distribution across shows

Genre distribution across shows

Distribution of shows by release year

These analytics offer valuable guidance for strategic decision-making within the production industry, enabling the company to enhance and refine their offerings effectively.
